If information on the month at start living together / month of marriage was missing, a 6 (june) was used in the calculation. Values 21-25 for month values are converted in the following way: "Beginning of the Year" = "January-February"; "Spring" = "May"; "Summer" = "August"; "Autumn" = "October"; "End of Year" = "December". If respondents got married before living together then the observation is excluded. |       |            |

I'm going to read out some statements about what other people might think about you starting to live with a/your partner during the next three years. Please tell me to what extent you agree or disagree with these statements, choosing your answer from this card. Card 323: Agreement Scale |       |                              |

I'm going to read out some statements about what other people might think about you starting to live with a/your partner during the next three years. Please tell me to what extent you agree or disagree with these statements, choosing your answer from this card.
