| <b>Literal question</b>                                       | In what month and year did your partner/spouse start this leave?<br>In what month and year did he/she become unemployed?<br>Since what month and year is your partner/spouse a student, in school, or in vocational training?<br>In what month and year did your partner/spouse retire?<br>Since what month and year is your partner/spouse a homemaker?                                                                                                                                                                                                             |
| <b>Notes</b>                                                  | Partner's time of birth was deducted from HH grid (co-resident partner) or Q 311 (non resident partner). If information on the month of birth / month at start of current activity status was missing, a 6 (june) was used in the calculation. Values 21-25 for month values are converted in the following way: "Beginning of the Year" = "January-February"; "Spring" = "May"; "Summer" = "August"; "Autumn" = "October"; "End of Year" = "December". In Belgium if the partner is still in education (a941y==2301) then the variable was coded as system missing. |
