Interviewer's instructions Interviewer Instruction: Read the following text.
This survey is called the Generations and Gender Survey. It is about topics related to children, partners, parents, work and everyday life. The aim is to study what factors influence family formation, having children, and relations between younger and older generations. The study is part of an international programme co-ordinated by the UN Economic Commission for Europe. Your participation is voluntary, but it is very important because you represent many other people. We will hold the information you give us in the strictest confidence and use it only for statistical processing. It would also be better if we could have this interview without others being present, if possible. If you have any questions, please let me know.

Statistics [NW/ W]	[Valid=6514 /-] [Invalid=6344 /-]		
Definition	Derived variable from Q 302.b core questionnaire		
Universe	If code 1 on question 302.a		
Literal question	In what month and year did you marry?		
Notes	The time of starting to live together was deducted from the answer to Q 301. If information on the month at start living together / month of marriage was missing, a 6 (june) was used in the calculation. Values 21-25 for month values are converted in the following way: "Beginning of the Year" = "January-February"; "Spring" = "May"; "Summer" = "August"; "Autumn" = "October"; "End of Year" = "December". If respondents got married before living together then the observation is excluded.
